## MOST VERSATILE AUSSIE RULES FOR ASCA NATIONAL SPECIALTIES

### Approved and Effective January, 2003

The Most Versatile Aussie Award is offered to recognize the dog which best combines the attributes of trainability, desire and ability to work livestock, and faithfully represents the breed standard. This dog exhibits the strong working ability that is the basis of the breed by attaining a qualifying score in at least one stockdog trial class. The dog demonstrates trainability and willingness to please by the combination of skill and expertise required to qualify in at least one of the recognized performance events - specifically agility, obedience and/or tracking. The dog is a true and honest representative of the breed when evaluated against the breed standard. Working ability, performance measurement, and breed evaluation are based on the rules and scorecards established by ASCA® for the individual events, and the combined event "Most Versatile Aussie."

1. A Rule Book for Versatility will be available on request from the ASCA® Business Office.
2. The name of the conformation evaluator and decisions optional with the club must be stated in the Premium List. **The following may not be changed by any club: Bitches in-heat (See #9 below) must be allowed to compete. LEPs {see #5(C) below} are not allowed to compete. Dogs {see #5(D) below} may be intact or altered.**
  - Copies of the approved rules must be available upon request and on the Show Grounds.
  - **The person(s) who will be responsible for versatility record keeping for the entire competition will be identified to the ASCA® Board prior to the start of the Nationals.**

### MOST VERSATILE RULES

1. To earn the Most Versatile Aussie Award, each entry must earn a score from the Conformation Evaluation and a qualifying score from a regular Stockdog class. In addition, to remain eligible for the MVA Award, each entry must earn a qualifying score from at least one of the following **Four** performance programs: Agility, Obedience, **Rally or Tracking**. Program specifics will be mentioned in these rules under each program.
2. Ties for awarding the Most Versatile Aussie Award and placements will be broken using the highest Stockdog score as calculated for MVA points. In the case that a tie still exists, the dog with the highest number of qualifying scores in all MVA qualifying events will prevail. If the tie is still not broken, dual placements shall be awarded.
3. Computation of all scores for awarding the Most Versatile Aussie Award will be handled by either the Most Versatile Aussie show committee, or by one identified member of the show committee. The Host Club may request assistance in the tabulation and auditing of the MVA scores from the Versatility Committee, or the ASCA BoD. The Host Club will provide a location where all scores will be posted as soon as practicable after each eligible competition is completed. It is the owner/handler's responsibility to check the scores as posted, and report to the MVA chairperson any discrepancy no later than two hours prior to the time scheduled for awarding MVA. **Awards for MVA are final once presented.**
4. All entrants shall be presented with a participant ribbon during the conformation evaluation. The participant ribbon at Nationals is to be given immediately upon completion of the individual conformation evaluation. Immediately thereafter the participant may be allowed to leave the ring. All entrants who successfully earned qualifying scores in the conformation evaluation, stockdog trials and obedience and/or agility and/or tracking events as required by these rules shall be presented with a qualifying strip ribbon at the MVA awards presentation with the top ten qualifiers receiving placement ribbons.
5. **Most Versatile Aussie Evaluation (Conformation Evaluation)** (See Appendix A)
  - A. The MVA evaluator must be an ASCA® breeder judge, a senior breeder judge is preferred but is not mandatory. An ASCA® provisional breeder judge cannot be an MVA evaluator. The MVA Evaluator will be allowed to show prior or subsequent to the day of the MVA evaluation. Further, any dog(s) owned by the evaluator may compete in any and all venues, other than MVA, on the same day that the evaluations are performed, provided the handler is someone other than that evaluator. Members of the evaluator's immediate family may handle the

dog. If the evaluator is judging other classes or venues in addition to the MVA evaluation at the cluster, the ASCA® rules pertaining to that judging shall take precedence.

- B. Ninety points are available. The form and point schedule used will be provided to the evaluator.
  - C. This class will not be placed and no awards will be given. The score given by the evaluator will be used.
  - D. Only Australian Shepherds with full registration privileges will be allowed to compete in MVA. No LEP registered dogs will be allowed in MVA. **This class is open to spayed and neutered animals as well as intact animals.**
6. **STOCKDOG**
- A. The highest qualifying score from the Started, Open, Advanced or Post-Advanced will be used to compute MVA points. Highest score is defined as the score that will result in the highest number of MVA points.
  - B. Additional qualifying scores will earn 5 points each.
  - C. Points will be computed as follows:
    - Advanced and Post-Advanced = Score +6% of score
    - Open = Score
    - Started = Score
  - D. Bitches in season entered in Versatility must be accommodated in the Stock Dog Trials.
7. The dog will receive one MVA score from the three performance categories of obedience, agility and tracking. The one qualifying score with the highest MVA point value will be used as the dogs base score. Any and all additional qualifying scores will be valued at 5 points each and added to the base score to get the dog's total performance score.
8. **OBEDIENCE**
- A. The highest qualifying score from a regular class will be used to compute MVA points.
  - B. Points will be computed using a 3% factor as follows:
    - Utility = Score **plus 10 points**
    - Open = Score
    - Novice = **Score minus 10 points**
  - C. Bitches in season entered in Versatility must be accommodated in the Obedience Trials. They will either run last, or in a special ring. Qualifying scores received will count for Versatility only.
9. **AGILITY**
- A. Only Regular Agility, from the standard, veterans or junior division, will be used for versatility.
  - B. The highest qualifying score will be used to compute MVA points.
  - C. Points for MVA will be awarded as follows:
    - 195 for a qualifying clean Elite run
    - 190 for a qualifying faulted Elite run
    - 185 for a qualifying clean Open run
    - 180 for a qualifying faulted Open run
    - 175 for a qualifying clean Novice run
    - 170 for a qualifying faulted Novice run
  - D. Bitches in heat will be allowed to run at the Nationals Specialty Agility Trial. They will run at the end of each class. A rug or tarp will be brought out to the start line and the dog will be placed on the rug or tarp to begin her run. Bitches in heat will also wear panties during their runs. Bitches in heat must be crated (not in an expen) prior to and during the competition, except when competing, away from the agility ring at a distance or location to be determined by the host club. All qualifying scores will count toward the trial, as will placements. Failure to comply with this rule will result in dismissal from all agility trials held in conjunction with the ASCA® Agility National Specialty.
10. **TRACKING**
- A. Points for MVA will be awarded as follows:
    - 195 points for a successful TDX track.
    - 180 points for a successful TD track.
    - **180 points for a successful TDU track.**
  - B. Bitches in season entered in Versatility must be accommodated in the Tracking Trials. They will run last in Tracking, and will be kept away from the tracking area until called. Qualifying scores received will count if the premium list specifically states that "bitches in season may participate."

11. Rally

A. The highest qualifying score from an A or B Advanced, Excellent or Masters class will be used to compute MVA points.

B. Points will be computed as follows:

Masters = Score minus 5

Excellent = Score minus 10

Advanced = Score minus 20

C. Bitches in season entered in Versatility must be accommodated in the Rally Trial and will run last at the end of the day. Qualifying scores received will count for Versatility only

11. **SCORING FOR VERSATILITY COMPETITION**

There is an optional Excel program available through ASCA® or the MVA Committee that will compute and tabulate MVA scores for you. Please feel free to contact ASCA® or the MVA Committee to obtain a copy via disk or CD.

12. **SPECIAL AWARDS**

The Host Club for the ASCA® Nationals shall include in their flyer any special awards to be given in the MVA competition. A memorial trophy will be awarded to the winner of the Most Versatile Aussie at every ASCA National Specialty in the name of Past President and Director Jean Carrillo (who passed away in 1997).
